

AERUS *Air You Can Trust™*

The ActivePure Surface & Air Guardian reduced 99.96% of airborne SARS-CoV-2, the virus responsible for COVID-19, within 1 minute.[1]

This unaffiliated lab test was done on the lowest setting using only the ActivePure® Technology.

THE TECHNOLOGY

The ActivePure Surface & Air Guardian combines multiple complementary technologies, including our patented ActivePure Technology, Activated Carbon Filter, HEPA Filter Sheet, and Carbon Brushes to provide air purification in indoor spaces. Patented ActivePure Technology is an advanced air purification technology. It has been proven to reduce up to 99.9% of many common types of airborne contaminants in indoor spaces (list of tested pathogens can be found in "The Proof" section below).

ActivePure Technology does not replace the need to follow public health guidelines and should be used as a complementary technology.
